

Craig Bradshaw WA Senate Candidate

Favorite saying: “Mass immigration and demographics is destiny!”
– Geert Wilders. Speech at the House of Lords

INTRODUCTION

In this brief I have touched only upon a handful of the many issues that One Nation faithfully addresses.

While Immigration does loom large, we are far from a “single issue” party and other topics are covered in more detail on the Policy Pages of our website as well as in various hard copy documents available directly from One Nation.

Some topics (considered of particular importance) are listed below.

IMMIGRATION

It is true that, if not halted immediately, the seemingly ever increasing number of legal and illegal immigrants is set to change the “Status Quo” of Australia beyond all recognition. The result to our existing environment, quality of life, customs, values, laws and present day population balance - indeed our civilisation will soon be catastrophic and irreversible! Time has already been wasted, the hour is late!

We are aware that the recent spate of what can only be called “invaders” gives the lie to the former PM Kevin Rudd’s promise that our population will stabilise at 34 million by 2050. Aside from the fact that Kevin Rudd has been deposed by his own disgraceful party “knife men”, such predictions are meaningless fluff.

A quick look at the [World Population Counter](#) or the [Australian National Debt Counter](#) is enough to put the fear of God into any thinking Australian. The simple fact is, third world population growth has for decades been unsustainable.

Australia, through its ethic of hard work and honesty, is a strong nation. But it is also a nation with a small population that could very easily be swamped by foreign cultures with their long histories of endemic corruption, crime, disease and religious fanaticism.

If Australia is weakened by unregulated immigration or by allowing those who are already here on temporary study or work visas to become citizens, then our nation will be weakened to the point of self destruction.

Only the strong can uplift the weak. If we ourselves are weakened, then Australia will no longer be in a position to offer aid to the third world. Charity begins at home. We must fight and defend our home base, our Australian families, our institutions and the values handed down to us by our forefathers.

One Nation will help the third world in the third world, through measured and carefully targeted foreign aid programs – not through immigration.

The billions of poor who live in nations on our door step naturally want to enjoy what we have. But we must understand that they are running from self created poverty and corruption. These are failed cultures because they themselves failed to address and arrest the causes of their own decline. And if we allow them in to Australia, then the logical consequence for us must be the erosion and eventual destruction of our own high standards.

Both the Federal Liberal and Labor Governments have failed to seal our borders.

John Howard stopped the boat people, yet allowed tens of thousands of other invaders in through the back door on student, permanent residency, and work visas – far more are walking our streets and drawing Centrelink payments today that way, than by entry via a leaky boat.

Labor has failed on all counts and has even conveyed the message to the third world that Australia is a soft touch - Centrelink, free health care for the whole tribe, a house, a car, a team of personal do-gooders to assist you and all the comforts of the first world await – step right up folks! You've just arrived in Paradise!

Another gift from the Rudd/Gillard Labor Government!

Meanwhile thousands of Australians – battlers, the elderly, those with disabilities, young couples, single parents and even low income working couples bunk with mum and dad or remain homeless after paying their taxes and waiting years. Is this our Australia, or does it now belong to strangers? Are we angry ... Oh, Yes!!!

To add insult to injury our Immigration Departments (multicultural incubators) have been infiltrated by the vanguard of this invading horde for the purposes of facilitating the arrival of even more of their kind and fleecing those suckers on the way through – corruption rules!

Indonesia's criminalisation of people smuggling is welcome, but irrelevant. The world must hear directly and loudly from Australia that we are full – stop, no more! If you arrive undocumented, no benefits, you are on the first aircraft home.

To date, all Federal Governments have turned a deaf ear to the people of Australia. One Nation alone is listening and hearing you loud and clear!

One Nation offers the Australian voter the cessation of all but the most carefully scrutinised and approved immigration cases. With One Nation the borders will be safe and this destructive force will be kept from our homeland forever.

THE ECONOMY

Our opposition would have you believe that One Nation is a single issue party. As you read the following you will discover that is a lie.

The Rudd and Gillard Governments are big spending and big taxing governments.

Just remember it's your money they are thrown down socialist black holes and it's your tax they are doing it with. And once it's gone, they'll be right back in your pocket for more.

Government handouts such as the Rudd "stimulus" effort rarely value add to a nation. In this case much of the money quickly ended up in Chinese pockets – never to return to Australia! If you want to make Shanghai wealthy, just support Julia Gillard's misgovernment circus.

Small Government

One Nation believes in small government, balanced budgets, living within our means, and a reduced public service that actually provides meaningful, needed, services - for a change.

Business

One Nation will encourage and facilitate all levels of business to get on with the job of creating a prosperous and proud Australian community in which freedom, health, wealth, and happiness are attainable and where the rules are simple and don't change every five minutes, where a just reward is the end game. We see Government as facilitators, not litigious and bureaucratic obstacle makers.

Australian commercial assets will remain Australian owned.

Foreign Trade

First and foremost One Nation will encourage foreign trade that is advantageous to Australia and Australians.

One Nation will unleash the power of our mining industry to create wealth, while at the same time ensuring the maximum return stays in Australia for those businesses and the Australian community. The idiocy of the Rudd mining supertax will not be re-visited.

“We contend that for a nation to tax itself into prosperity is like a man standing in a bucket and trying to lift himself up by the handle.” - Winston S. Churchill.

OTHER ISSUES

The failed experiments of Multiculturalism, Affirmative Action, Political Correctness will be replaced by a return to the sound, often Christian, values that created our Nation.

Fundamental Principle of Justice: Do not make equal what is unequal! - Friedrich Nietzsche

Race

One Nation will not be pigeon holed by the lame brains of the left wing as a “racist” organisation. In the context in which they use the term it is quite meaningless. We bare no malice against any people or individual. We believe that charity begins at home and in looking after our own people first.

Having said that, race certainly exists – the latest scientific DNA discoveries confirm it. We are proud of who we are – Australians. We know who we are and who, and what, we are not! We know who we want here and who we don’t and that is our right.

The entire massive kingdom of nature has for all its long history proclaimed one simple, immutable, indisputable, truth – like species prefer the company of their own! So do we! And to that extent we comply with natural law. To hell with the idiotic notions of mentally deranged, discredited, socialist/communist twentieth century left wing political philosophers.

“Deviation from the truths of the blood begets neurotic restlessness, and we have had about enough of that these days. Rootlessness begets meaninglessness, and the lack of meaning in life is a soul-sickness whose full extent and full import our age has not yet begun to comprehend.” - Carl Jung

Health

The Health portfolio is arguably the most mismanaged portfolio of any Federal Government to date. Subject to the whim of political dogma, cost cutting, inappropriate spending splurges, administrative waste and general mismanagement it has provided nothing but a disservice to Australian’s - and all this in spite of the excellent work of nurses, doctors and other medical specialists who must put up with the administrative shambles.

Under One Nation the entire portfolio area, State and Federal, will be revamped in line with our philosophy of small bureaucracies and putting the money where it is needed to get the job done.

Education

The Julia Gillard “education revolution” is clearly an expensive farce, by which Labor destroys another generation of our youth and wastes more precious taxpayer money. As

with Health, One Nation will reduce the bureaucracy and channel money where it is needed to get the job done. More details on our Education reforms will appear on the website soon.

See further policy outlines on our website.

PERSONAL BIOGRAPHY

Born in 1958, I am a third generation Australian of Australian and European heritage. I am also the second son in a traditional, loving, Aussie family.

Having successfully completed my third year at high school, I set out to attain a useful trade qualification. I joined Joyce Brothers, then medium size manufacturing company, in O'Connor, Western Australia where I completed an apprenticeship in fitting and machining.

Seeking a change of direction, I found work in the hospitality industry for three years before taking up lawn mowing - which I did for twelve years as an independent contractor.

It was only after attending the funeral of my high school metalwork teacher that I realised I was wasting skills taught to me by many dedicated and highly skilled tradesmen who had willingly passed their knowledge on to me.

I came to believe that not using that specialist knowledge was in fact an insult to those who had invested so much in me, so I returned to the trades and opened the engineering business that I operate to this day.

By the age of 16 I was already politically aware. My reading and thirst for knowledge about social and economic issues and the various party policies that supposedly addressed these matters led me to understand that all political ideologies have good points and bad.

By observing the changes in Australian society it became plain to me that the direction of the major political parties in Australia was leading us to ruin.

From the 1970s it became clear to me that only the policies espoused by Australian Nationalism could stop the slide into social and economic decay that sadly is so evident today.

I am a proud Australian and will fight to preserve and strengthen the predominantly Western European society that has built a prosperous modern nation out of what for 40,000 years (with the exception of our Australian Aborigines) was a virtual "Terra nullius".

Craig Bradshaw – Vice President - One Nation Western Australia

MY PLEDGE

As **State Vice President of One Nation Western Australia**, many of the issues faced by MPs and Senators are familiar to me.

My long political experience in One Nation and my knowledge of business, community and family issues gives me confidence to seek your vote.

My parents brought me up to believe in the value of honesty, hard work and service to my fellow man. I have followed that advice all my life.

As a long time nationalist I see the value in many of the character traits that made Australia the greatest country on earth and it frustrates me to see those same values and ideas torn down, ridiculed, and replaced by already failed communist and socialist dogma and practices.

Under One Nation, intimidation, prosecution or imprisonment for the exercise of free speech will cease.

"A Slave is he who cannot speak his thoughts."- Euripides

Rather than simply oppose the adverse trends evident today in Australian politics, we propose to attack by offering better ways, better solutions and a far, far, better and brighter vision for "our" Australian future.

"The logical end to a defensive war is surrender!" – Napoleon Bonaparte

Under One Nation, asylum seekers will not land on our shores and any visas given will be temporary, with no pathway whatsoever to future Australian citizenship.

Under One Nation, illegal immigrants, visa over stayers and those recent permanent residents or citizens who break major Australian civil or taxation laws will be repatriated. If necessary assets will be seized.

"Genuine democracy' has long been denied us for the simple reason that genuine democracy is a major handicap to corporatism, centralisation of power and the internationalist "One World" gang - for that matter all those groups who squabble for religious, financial and political domination. All we seek is to be left alone on our island continent.

As with our other One Nation Candidates, it is my aim to facilitate the party in gathering together patriotic Australians as the eagle gathers her chicks under her wings.

To those who oppose our freedoms and rights, we say "Watch out for the talons. This isn't the old One Nation!"

Australia is a modern representative democracy in name only. Sadly the very people we sent to "represent" us in our Parliaments have consistently lied to us and let us down!

And that is the reason why Australia has been named "The least Democratic Country" out of the top 21 industrialised nations.

"The price of apathy towards public affairs is to be ruled by evil men." Plato,
ancient Greek philosopher.

We encourage you to toss out the old idea of "never becoming involved in politics". It is when people take their eyes off the politicians that everything goes wrong. As Sir Winston Churchill so correctly said:

“The best argument against democracy is a five-minute conversation with the average voter.”

Become informed. Join us at One Nation and take a hand in your own destiny by helping us “keep the pollies honest.”

When you vote Labor, you vote for an unseen Caucus of string pullers from the union movement with vested interests. They have an unpublished secret agenda for you!

When you vote Liberal you vote for an unseen State Executive of string pullers with vested interests in big business. They too have an unpublished secret agenda for you!

When you vote One Nation what you see is what you get – our entire agenda is published and out in the open. That’s why the media and every vested interest group hate us. All except the people, that is!

NOTE: Recently our State President questioned 73 citizens as to the reasons why they voted as they did. Here “Word for Word” are the answers:

- a. Give the other mob a go.
- b. Mum always votes for xxx.
- c. I always vote for xxx.
- d. I like Rudd. He give me \$950 because he’s had a hard life himself. Now he wants to help us poor people.

And the favourite. After long deliberation, an elderly Lady offered this.

I didn’t like that little bald headed one (John Howard, I presumed).
I think I’ll vote Liberal this time!

These deplorable answers, thank God, were interlaced with detectable frustration, no small amount of fear, and a desire for change, not only from three prospective One Nation voters, but also the remainder of the good folk who gave of their precious time for the survey.

It is with deep concern for those people and with Australia’s dire position in mind that I submit my Candidacy for the forthcoming election.

A FINAL THOUGHT

"Great nations rise and fall. The people go from bondage to spiritual truth, to great courage, from courage to liberty, from liberty to abundance, from abundance to selfishness, from selfishness to complacency, from complacency to apathy, from apathy to dependence, from dependence back again to bondage."

— *Attributed to British Prime Minister Benjamin Disraeli*
