

## **TIME TO RECOVER OUR DEMOCRATIC RIGHTS and FREEDOM**

*By Elizabeth Safrany 17<sup>th</sup> July 2010*

**Australians need to stand up, be counted, and be ready to reclaim their democratic rights, in the coming election!**

**Freedom of speech and the right to live in a free country are our birthrights. That is what our forefathers fought and toiled so hard to create and preserve for future generations. This was their legacy to the nation, so that we can enjoy peace and plenty. To toss away or ignore our birthright is to ignore and insult their memory.**

**Will you exchange “our” Australia for a handful of self serving politicians controlled by unseen party heavy weights and directed by failed policies like multiculturalism and political correctness?**

**Our democracy and freedom is rapidly being eroded by both left wing and liberal policies that satisfy minority groups and big business - whose only concern is self satisfaction, egos, and greed. Everywhere they sell Australia to the highest bidder! Ordinary Australians receive nothing from these parasites. We need to work hard to grow an Australia that serves and protects every citizen who loves democracy, freedom and the way of life that means so much to us.**

**Today policies are made on the run, without consideration for the economy, cost, national safety or our seniors - who also struggled so that every citizen may have the right to a voice in big decisions.**

**United Nations Agreements and any other proposed treaties that may impact Australia must be put to a People's Referendum. That is the true meaning of democracy - government by the people for the people of the people.**

**In all honesty, do we see this sort of government in power today? Would Tony Abbott offer such a government to the people? Not likely!**

**Ministers are elected by the people to serve the people and be our voice in Parliament. They are our representatives – they serve us. They were never, and under One Nation will never be, our masters!**

**Australians, you must have a voice and it must be for all Australians and not just a selected few. We must all wake up. The “she'll be right mate” attitude is not right! That is what is killing us. That is why we are losing our identity and our country. The night is passed, the dawn is coming, and with each new day we must be resolve to once again stand proud and regain your nation.**

**Are you going to sell your birth-right as Jacob sold his to Esau - for a bowl of porridge? Or should I say rice! Australia is worth far more than that! The blood of every Australian pioneer and patriot and fighting Anzac cries out from the earth “Stand up you young Australians. It is your generation that must fight now! Your turn has come – fight – or will you slink away into oblivion as craven cowards?”**

**When you cast a vote on election day – make the shot count! Vote One Nation, that way you defend our legacy, our freedom and our democratic rights.**
