

Immigration adds millions P.A. To our foreign debt.

A Moratorium on Immigration

Withdrawal from those UN and UNHRC Treaties that severely disadvantage or conflict with our Australian laws and sovereignty.

The return of all Immigration matters to a reformed Australianised "Immigration Department"

Over many decades tens of thousands of invited immigrants made their start in Australia. They were, and still are, net assets to Australia. Often they fought and died for Australia. They always put Australia first. We have only to look around to see what wonders they achieved!

For the sake of money, misguided ideology, personal ego, and for fear of their masters in the UN and elsewhere both major parties have more recently allowed into Australia a flood of uninvited foreigners, many with faiths and beliefs totally and eternally at odds with our own. Many of whom will always remain net liabilities - forever dragging other Australians down. And look what these new arrivals and their extended families are costing while they contribute nothing!

The present Gillard/Brown government has no mandate to spend hundreds of millions of tax payer's dollars on immigrants and queue jumpers when millions of our fellow Australians struggle on or below the poverty line or wait years for medical care and public housing accommodation.

Parliamentary representatives are elected to serve the people of Australia and do their will, not the bidding of foreign powers such as the Globalist United Nations or other Internationalist Bodies.

The majority of Australians want a swift and sure end to the Immigration/Asylum seeker farce that is making Australia the laughing stock of the world. This is how you get it ...
