

THE REDS ARE NOW RUNNING THE HOUSE

By Craig Bradshaw Senate Candidate One Nation WA
8th July 2010

They use to warn of “Reds under the bed”, but now we have “Reds” running the country!

For years Labor has worked hard to fool the public into believing they care about Australia and want what is best for our people. Their spin barely disguises the socialist intent of Labor and many voters are blind to the dangers of giving them the keys to our lives.

Julia Gillard has all the hallmarks of the modern Bolshevik, belief in her own natural superiority, a lust for other peoples' money and a desire to bring on One World Government. She is an even better actor and Socialist than the now disposed of socialist pinup boy Rudd.

There is NO doubt that the Socialist, union controlled, Labor Party is leading us down the dark path of deception toward the oily pit of Bolshevik despair and destruction. Even the Howard government wasn't moving that fast on their equally dangerous agenda of selling out to big business and the “One World” power maniacs who seek to steal our culture, wealth and freedoms. REMEMBER; THERE IS NO DIFFERENCE BETWEEN COMMUNISM AND CAPITALISM, both are a means to gain ultimate power and international control.

As your ONE NATION Senate Candidate I support FREE ENTERPRISE, but I do not support the centralist beliefs of Gillard and Abbott.

We do not need any Liberal or Labor puppet government subservient to their master, the United Nations. We need a strong patriotic Nationalist government that tells our international enemies to clear off, and then works to strengthen our communities and our economy to withstand the orchestrated abuse that will be directed at Australia.

The policies of Gillard and Abbott are set to destroy the fabric of Australia. Neither have the will power or even desire to tell the UN that Australians will decide what happens in Australia.

Both have put forward policies on immigration and border security that are in line with maintaining the flood of unsuitable entries into Australia. Both refuse to end the abuse of our immigration visa system. Both pander to foreign demands. Abbott is even intent on increasing the number of inappropriate refugees Australia will accept. No doubt trying to appeal to the left wing socialists embedded within the Liberal Party.

Absent from all current debate on immigration is the growing number of welfare parasites from Muslim countries who already make demands for special treatment for their fellow jihadists!

Only genuine One Nation patriots who carry the interests of Australia first and foremost into the parliament will demand the answers so desperately needed. Only genuine One Nation patriots will fight, accuse, and demand the Australian taxpayer be told how much money is being wasted on the failed policy of multiculturalism.

I implore all Australians, but particularly Western Australians, to support One Nation in every possible way. Make sure you are enrolled to vote. Make a tax deductible donation to our electoral fund. Become a member. Finally, give One Nation your vote.
